

# MADRIGALS FROM THE BALLADIST

*Keith Bryan is the alter ego of Bryan Fleming. With his busy schedule as CEO of Sky High Productions Inc; Sky High Audio Inc and Art By Design Inc, Fleming turned all creative writing over to Keith Bryan. Keith Bryan does not live, he only writes. He does not breathe, only exhales. The topics and expressions conceived, are the voices of us all in one way or another. Capturing the deepest imagination and the most pondering questions. Using words to explain, provoke, or prequel life. Keith Bryan writes for the sake of writing. To get off, what's on the mind and to keep the writing process alive for literary arts. For without literary, there is no music, no movies, and no screenplays to tell the story of life.*

*In addition to **Madrigals From The Balladist**, also available from Keith Bryan are the novels:*

**Welcome To My World;**

**Close Encounters Of The 5th Kind-World Domination;**

**The 3rd Testament and**

**The Dawning Of Aquarius**

*Each are currently available exclusively from [www.skyhighnet.com](http://www.skyhighnet.com)*
